Consulting Services for phpMyAdmin

Report - July 2021

Overview

Over the month of July 2021 I fixed issues and merged pull-requests. Wrote tests and improved code. Also did some UI migrations.

First week (week number 26)

This week I was not working on the project but I did some issue and pull-request triage.

Second week (week number 27)

I found some bugs after searching in specific places of our code-base. I did some issue and pull-request triage. Wrote tests. And fixed and worked on pull-requests. Also some infrastructure configuration fixes.

Third week (week number 28)

I removed dead code and improved Types support on Psalm. Wrote tests. This week I fixed issues and merged+rebased pull-requests.

Fourth week (week number 29)

This week I fixed issues and merged pull-requests. I also wrote tests and sorted out Sentry reports.

Fifth week (week number 30)

I worked on a security issue, reported other issues. Closed and fixed issues and merged pull-requests. I migrated the Theme dropdown and the database filter box to Bootstrap. Also wrote tests.
