Consulting Services for phpMyAdmin

Report - November 2022

Overview

Over the month of November 2022 I did some bug fixing, pull-request reviews and improved the Original theme. Also wrote some documentation and some tests.

First week (44)

I did bump the CodeMirror library and merged some pull-requests.

Second week (45)

I worked on some Original theme fixes and fixed a bug about scrolling in the CodeMirror box.

Third week (46)

I merged pull-requests accors our repositories. Fixed the website CDN purge code. I worked on a JS performance issue on export as text. Updated the FAQ. Fixed multiple bugs and made visual improvements. Also migrated two search fields to bootstrap.

Fourth week (47)

I reviewed and merged pull-requests accors our repositories. Documented, reviewed, wrote tests, merged the work for adding new ENVs on the docker repository. I also worked on Debian packaging and server maintenance.

Commit list

phpmyadmin/phpmyadmin (GitHub)

Week 44

- f6158aac5d - Bump codemirror 5.65.3 to 5.65.9
- e99bfaee4b - Add a ChangeLog entry for #17777
- 9b700c6307 - Merge #17852 - Fix #17777 - Uncaught TypeError: Cannot read properties of null (reading 'inline')
- 3a7b77d22e - Update psalm baseline
- c00a904827 - Merge #17864 - Fix #17793 - insert record - fix null not selected if nullable UUID & insert error
- 296e6b62ce - Update phpstan and psalm baseline
- 5e1ff822f3 - Merge #17860 - Fix #17793 - insert record - fix null not selected if nullable UUID & insert error

Week 45

- 663e7a0e67 - Add ChangeLog entries for 970dbd6d44 and 551509f345
- 551509f345 - Fix Original theme buttons
- e047446323 - Add a comment to help code search about cm-s-pma
- ed00df955f - Fix #17705 - remove hiding the scroll bars because large and long SQL queries can not be scrolled
